## *F.P. Journe*

A HIGH-END WATCH MANUFACTURER IN Switzerland, the motto for the F.P. Journe brand is *Invent et Fecit* (Latin for “invented and made”), which denotes that the company builds the entirety of its watches. Journe designs brand new movements, even inventing completely new systems, like the resonance chronometer.

Each F.P. Journe creation is constructed of platinum or red gold. The company is also the world’s only watch manufacturer to produce the movements of its exclusive mechanisms in 18-karat rose gold. F.P. Journe has been recognized for its originality with three “Golden Hand” honors for the *Tourbillon with deadbeat seconds*, the *Sonnerie Souveraine*, and the *Centrigraphe*.

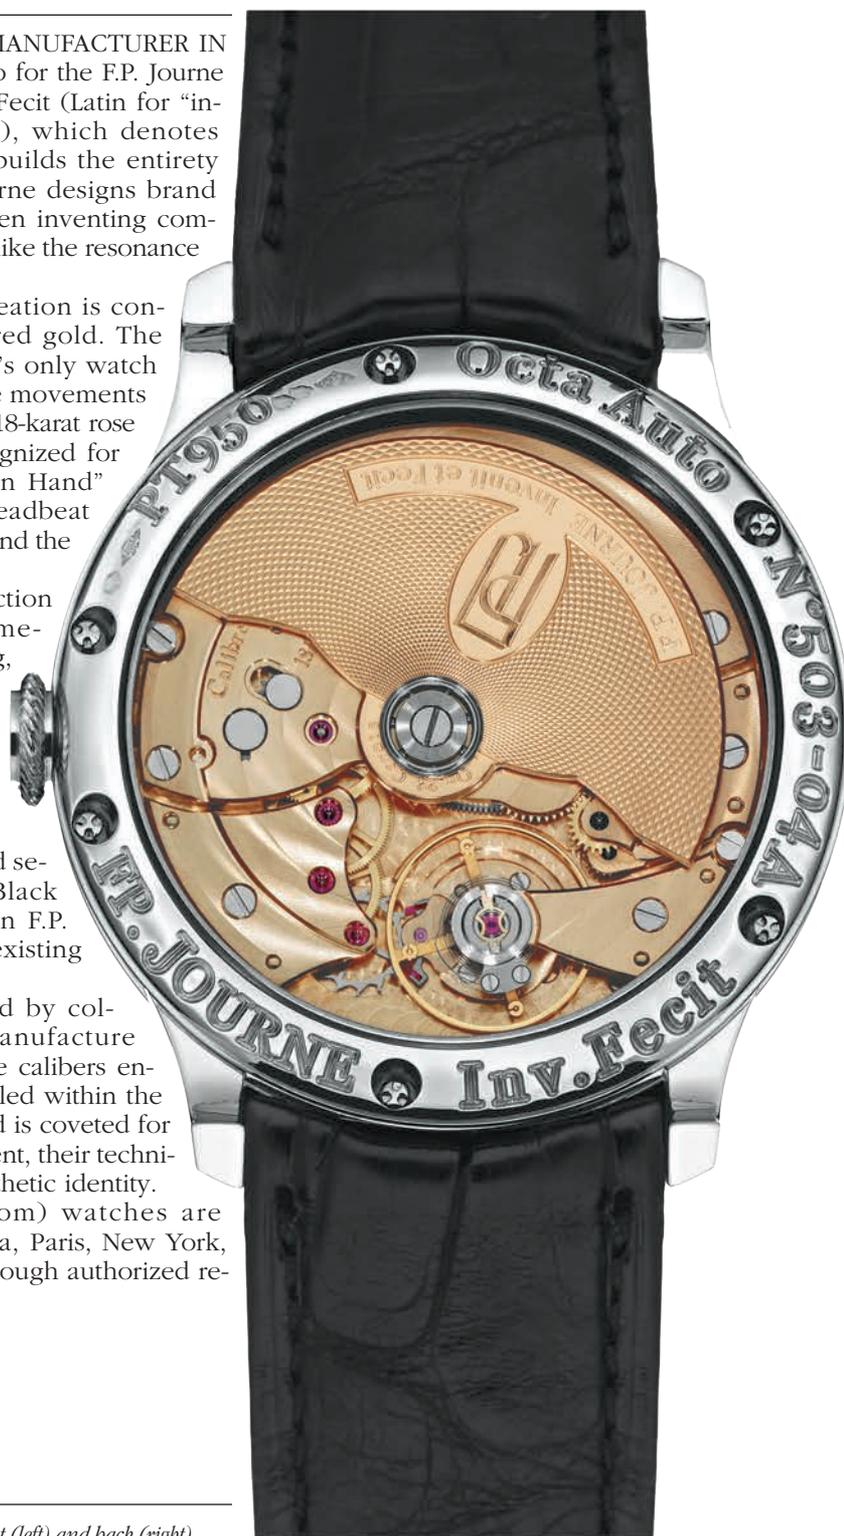

F.P. Journe’s *Souveraine* collection is composed of high-precision mechanical watches with manual winding, featuring exclusive complications.

The *Octa* collection with automatic winding is based on the same caliber with the prowess to insert all the complications of the *Octa* line in the same space.

F.P. Journe also produces a *Limited* series, anniversary editions, and the *Black Label* line, which is available only in F.P. Journe boutiques and exclusive for existing owners of an F.P. Journe watch.

F.P. Journe watches are coveted by collectors who appreciate genuine manufacture watches with exclusive and innovative calibers entirely invented, produced, and assembled within the manufacture workshops, and the brand is coveted for the unique conception of their movement, their technical innovation, and their power of aesthetic identity.

F.P. Journe ([www.fpjourn.com](http://www.fpjourn.com)) watches are available through boutiques in Geneva, Paris, New York, Tokyo, Hong Kong, and Beijing, or through authorized retailers around the world. ●
