Tito's
Handmade Vodka

TITO'S HANDMADE VODKA FOUNDER AND MASTER distiller Bert "Tito" Beveridge is a pioneer in the world of micro-distilling. In the early 1990s, Beveridge enjoyed infusing flavored vodka in his spare time, creating much-loved batches for friends. His path soon became clear and he decided to create his own vodka company.

Tito's Handmade Vodka (titosvodka.com) is a slow, six-times distilled personal recipe offered at the fairest price possible. Tito perfected his 100 percent corn mash recipe by employing the same pot still methods applied to fine single malt scotches and the highest-end French cognacs. The clear, odorless, and unmatched smoothness of Tito's Handmade Vodka is the cleanest expression of the spirit and one of very few suitable to be enjoyed neat. It was Tito's intention to create a smooth and pure vodka that women, with their refined palate, would love to sip. Tito's Handmade Vodka has been awarded 95 points by *Wine Enthusiast* and was recognized with the "UCC Chairman's Trophy" at the 2010 Ultimate Cocktail Challenge for the World's Best Vodka Tonic. Today, Tito's Handmade Vodka is one of the fastest-selling and fastest-growing micro-distilleries on the market and remains one of the purest spirits available. ●
