

GLOBAL LEADERSHIP PERSPECTIVES

**Thoughts From Ambassadors On
Trade, Investment, Security, And The Future**

I am pleased to collaborate with LEADERS Magazine on another important feature focusing on the trade opportunities of seven countries: Brazil, Japan, Mexico, Morocco, Saudi Arabia, Ukraine, and the United Kingdom. This feature is presented as a special section highlighting Global Leadership Perspectives in the October 2024 issue.

Ambassadors from these countries share their thoughts on important topics and highlight the interests of their countries in the global business world.

I am sure you will find the insights of these Ambassadors to be of great value. If you would like to be in touch with any of the Embassies, please feel free to contact me directly at aa@arsht.com, and I will connect you with the appropriate people.
